

INFORMATION MESSAGE

Dear colleagues!

We are inviting you to participate in the International Scientific Practical Conference „Quality Management in Education and Industry: Experience, Problems and Perspectives” that will be organized by Lviv Polytechnic National University from **the 22nd till the 24-th of May 2013** (Lviv, Ukraine).

Working languages of the Conference: **Ukrainian, Russian, English.**

The main goal of the Conference is to organize a forum for exponents of enterprises (organizations), undergraduate and post-graduate students, doctorate trainers (doctorants), higher educational institutions (HEI) teachers and research staff, scholars and all interested.

The **Advertisement Exhibition** will be arranged in order to represent the products and services of participant-organizations which should become a way for a new cooperation, business contacts, smart decisions and profitable proposals.

Within the framework of the Conference the **student section** will function.

To take part in the Conference, you should send an application, paper, copy of the cheque for registration fee payment at the postal address of an Organization Committee **till the 1-st of April, 2013.** An electronic version of an application, paper and cheque copy should be sent at the conference e-mail address: **qmconference@ukr.net.**

The papers will be published prior to the conference commencement.

The whole text of a report in form of a scientific article could be published in the professional journals (Digest of Lviv Polytechnic National University, „Measuring Technics and Metrology”). The articles should meet the main requirements of the indicated journals (**conference.lp.edu.ua/qm**). After an approval of an editorial board and program committee, they will be accepted for publication in the mentioned periodicals. The oriented cost of a published page makes 2,5 Euro.

THEMATIC DIRECTIONS OF THE CONFERENCE

- Organization and monitoring of study process and specialist training quality
 - Peculiarities and problems of expert training and retraining
 - Modernization of the system of HEI management and educational service quality assurance: experience and innovations
 - Interaction within the system „higher education – labour market”
 - Assurance of availability and continuity of life-long learning
 - Gradual system of specialist training, and the problems of integrating the national systems into world space
 - International system of HEI accreditation: experience and problems
 - Development, implementation and improvement of a management system (according to the requirements of the standards ISO 9001, ISO 14001, ISO 22000, HACCP, OHSAS 18001): theory, practice and problems
